The game-makers have set the stakes. Are the tributes ready?

Limecraft

Week 7, August 7-11

We will experience the world of Limecraft with rock, wood, and water facing new challenges each day. Whether you prefer survival or creative mode, you will be testing your primitive and camp crafting skills. Campers will work together or on their own to discover resources and use them to craft and build a unique world within Lime Hollow.

Vanishing Act

Week 8, August 14-18

Campout 3 nights (Extra \$75)

It's back again after 3 years! Have you ever wished you could walk unseen and undetected through the woods? More than any other week at Lime Hollow, this is your best chance to hone one's awareness and develop Apache scouting skills. The art of camouflage and silent movement will take on new meaning when slinking past other groups! Team movement and silent communication will be key to evade wandering mentors during madcap night games. All of your existing skills will be put to the test, culminating in the ultimate challenge at the end of the week. We'll also learn about endangered and invasive species and become dedicated caretakers of Lime Hollow. This is the only week when we can spend three nights under the stars. Are you ready to "Vanish"?

To attend this week's overnights, one must have camped out at Lime Hollow previously. For this week only each campout night is a prerequisite for subsequent overnights.

Campfire Cuisine

Week 9, August 21-25

Who says camp food has to taste blah? We're calling all wannabe chefs to learn and help create unique campfire meals. We'll harvest from our garden and forage in the forest and learn which plants to pick and which to leave behind. It'll surely be a scrumptious week.

And for a special treat, we're offering an overnight campout with parents on Thursday night! Ask for details.
